

# Jesse Hull - Front End Engineer

jsehull.com  
GitHub: jsehull  
jse.hull@gmail.com

## OBJECTIVE

I have a non-traditional web development path with great life experience. I want to grow a company product/service with my continual learning and excellence and enjoy a fruitful atmosphere where teamwork and developer growth are cultivated. Let's talk.

## FAMILIAR TECHNOLOGIES

- React, Next.js, jQuery, JavaScript
- CSS-in-JS, Emotion, Bootstrap, Sass
- Git, npm, yarn, Gulp, Grunt, Bower
- GitHub, BitBucket, Netlify, Firebase
- PHP, Laravel, Homestead, CodeIgniter
- MySQL, NGINX, LAMP/WAMP
- GIMP 2, Figma, Paint!
- VS Code, vim, terminal, CLI

## CURRENT ROLE

**Freelance, Remote, CO**

**June 2020 - Present**

- React - Next.js - Emotion - CSS-in-JS
- *godinyourgarden.com* (React) - Built/designed static site for independent author's book release
- *jsehull.com* (React) - My personal portfolio and blog with links to various open source and code
- *Open source contributions* (OSS) - Based on resources I have benefitted from
- *Spare time* - I grow my technical abilities through various projects and online resources

## WORK EXPERIENCE

**GM, DUCTZ of Mid Michigan, Jackson, MI**

**Mar 2018- Feb 2019**

- JavaScript - Bootstrap - HTML
- Sales/marketing website updates
- Grew company culture, sales, and process
- Oversaw employee growth and retention
- Developed partner relations
- BNI President for local chapter

**Junior Web Developer, Total Mortgage Services, Milford, CT**

**Sept 2016- Mar 2018**

- JavaScript - jQuery - Sass - PHP - Laravel - MySQL
- Primary front-end developer for company website (construction and maintenance)
- Built responsive, mobile-first components and pages based on Photoshop designs
- Made the original site more responsive and mobile friendly before new site build
- Laid out vision for our CMO to inspire and drive the creation of our new company website
- Wrote and debugged clean and organized code, refactoring as needed
- Sent emails and form data through front and backend validation (AJAX/POST)

**Web Developer, DUCTZ of Mid Michigan, Remote, CT**

**June 2016- Sept 2016**

- JavaScript - Bootstrap - HTML - BitBucket
- New site increased sales 80%
- Created static website with original content for remote client
- Built for mobile first with responsive layout and ease of use to drive user engagement
- Leveraged HTML5 components to skip basic design decisions and allow for faster completion
- Authored all content for the website (descriptions, images, backgrounds, etc)

## EDUCATION

**University of Wisconsin-Milwaukee (UWM), Milwaukee, WI**  
*Economics, B.A.*

**Graduated 2011**

- Economics Mentoring Program Internship
